Purchasing the eBook

All customers will receive several emails at the time of purchase of an eBook from our online store. We suggest that previous to finalizing your purchase you add adpub@armonddalton.com to your safe senders list. If you have already made your purchase you may need to search in your junk & spam folder for some or all of the three emails you should have received at that time.

The three emails are:

- **Your user/sign-in information.** You will need this to access your profile at the online store each time you want to view your purchased eBook.
- **Order confirmation email.** A receipt and confirmation of your purchase.
- **Code & eMaterial information.** A special code generates and sends at the time of purchase. This is the code you will need to verify at the Armond Dalton Resource site for access to student data files.

If you are unable to locate any of these emails, contact us at adpub@armonddalton.com with your order number and what email you are missing.

If you already purchased your eBook directly from our website you can skip ahead to page E-3.

If you purchase Excel Based Decisions in Managerial Accounting, 1st edition through your local university/college bookstore they will give you an access card with a scratch-to-reveal code. You will still need to go to the online book store to “purchase” the eBook. The access code on your card is a coupon code that will make the “purchase” zero dollars.

Go To:

<https://armonddalton.directfrompublisher.com/catalog/book/excel-based-decisions-managerial-accounting-1st-edition> and place the book into your cart.
