All customers will receive several emails at the time of purchase of an eBook from our online store. We suggest that previous to finalizing your purchase you add adpub@armonddalton.com to your safe senders list. If you have already made your purchase you may need to search in your junk & spam folder for some or all of the three emails you should have received at that time.

The three emails are:

- **Your user/sign-in information.** You will need this to access your profile at the online store each time you want to view your purchased eBook.
- **Order confirmation email.** A receipt and confirmation of your purchase.
- **Book Code.** A special code generates and sends at the time of purchase. This is the code you will need to verify at the Armond Dalton Resource site.

If you are unable to locate any of these emails, contact us at adpub@armonddalton.com with your order number and what email you are missing.

Online Homework

There are three options for homework submissions.

1. Online homework on the Armond Dalton Resources. This option is covered in the section below.
2. Download and complete the fillable PDF's and submit by email to your professor directly or submit on your school's LMS site.
3. Download and print the fillable PDF's to submit a physical copy to your professor.

Consult your professor as to which method they require.

If your professor chooses option 1 and you are ready to submit your online homework, you will log in to the Armond Dalton Resources website at www.armonddaltonresources.com, using the username and password you created on your first visit to the site. If you have not already done so, enter the section code that was provided to you by your instructor. See page E-8 for reference. Locate the *QuickBooks Online* activity/activities in the Section box on the Dashboard page. The activity start date/time and end date/time are listed on the table. Your professor is able to select an alternative transactions list/price list for Chapter 9. Consult your instructor as to what transactions list you should use: "Main", which is what is in your book and is located in the Sections area, or an "Alternative", which is only located in the Sections area. If your professor assigns an activity for Chapter 9, the alternative transactions list that you will need is located in this table.

Note: Because of the functionality of this site, the alternative is provided for each chapter. YOU WILL ONLY NEED TO DOWNLOAD THIS ONE TIME FOR CHAPTER 9. IT IS NOT USED IN ANY OTHER CHAPTER.
